DETAILED ACTION

1. This application has been examined. Claims 1 and 2 are pending. An informational disclosure statement (IDS) filed July 12, 2004.

Claim Rejections - 35 USC § 112

2. Claims 1 and 2 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

3. The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

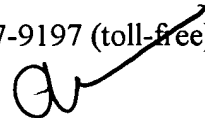

5. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Figure 1 of Skaats. Note a “hot water on demand system” including a hot water heater 23, one or more plumbing fixtures 17, 18, 28, 29, and a first hot water line 27 and a second “return line” in communication with a pump 36. A check valve 19 (claim 2) is shown.
